CP CASES SLIDING RACK SHELVES

Three designs of sliding 19 inch rack shelves with fully enclosed housings of steel construction finished black eggshell epoxy. Shelves are supported on double extending drawer runner units.

Keyboard tray

2U height outer sleeve, shelf accommodates keyboards up to 435mm wide. Low profile front of tray allows easy typing, and has 'finger-pull' facility. Two access holes are provided in the rear of the tray for cables. Self adhesive Velcro is provided to affix keyboard to shelf.

Laptop computer tray

2U height outer sleeve with 'security' key-lockable flap-down front containing a pull out tray. Self adhesive Velcro is provided to affix computer to shelf.

Writing table

1U height outer sleeve, shelf accommodates A4 notepad and/or mouse pad. Positive 'stop and grip' action when shelf is closed. Vertical front of shelf has a curved return to facilitate pulling the shelf out, which can also be used as a pen tray.

Manufactured by CP Cases Ltd.
