

XLR - XLR CABLES, 3-PIN, STARQUAD

Prewired cables, ready for use. Starquad cable for increased rejection of external electrical noise. Particularly suitable for balanced microphone signals. SQ versions are PVC jacketed, SQ-R versions have extra-tough polyurethane jacket.

Each individual cable is described in detail by the use of an abbreviated sequence in the form:

Canford Cable - 1st connector - 2nd connector - cable type - cable length - cable colour.

Detailed specifications for the connectors and cables are given in their appropriate entries elsewhere. All XLR connectors are solder connection type, not IDC. Abbreviations used in the descriptions are as follows:-

3FXX -XLR 3-pin female connector 41-031

3MXX -XLR 3-pin male connector 41-032

SQ -Starquad (6.5mm O.D.) 30-43X

SQ-R -Starquad, heavy-duty 30-440
