

XLR FEMALE - 2-POLE JACK CABLES

Prewired cables, ready for use. HST general-purpose, extra-flexible, screened twisted-pair cable.

Each individual cable is described in detail by the use of an abbreviated sequence in the form:

Canford Cable - 1st connector - 2nd connector - cable type - cable length - cable colour.

Detailed specifications for the connectors and cables are given in their appropriate entries elsewhere. All XLR connectors are solder connection type, not IDC. Abbreviations used in the descriptions are as follows:-

3FXX -XLR 3-pin female connector 41-031
NP2X -Metal bodied 2-pole jack 44-431
HST -HST cable 30-15X
