

JACK - RCA (PHONO) CABLES, 2-POLE

Prewired cables, ready for use. HSS cable for ultra-low mechanical noise with low level signals, Superphono connector uses Neutrik body and cable-gland for increased reliability.

Each individual cable is described in detail by the use of an abbreviated sequence in the form:

Canford Cable - 1st connector - 2nd connector - cable type - cable length - cable colour.

Detailed specifications for the connectors and cables are given in their appropriate entries elsewhere. Abbreviations used in the descriptions are as follows:-

NP2C -Metal bodied 2-pole jack 43-221
SPH -Superphono RCA (phono) plug 43-030
HSS -HSS cable 30-22X
