

CAT5E-F-M - DEPLOYABLE CATEGORY 5E DIGITAL AUDIO AND DATA STRANDED CONDUCTOR SCREENED MULTIPAIR CABLE Flexible, miniature

A reduced size version of Canford CAT5E-F, designed specifically for installations where a very flexible screened Category 5E cable is required.

The core construction and jacket material is identical to CAT5E-F; the difference is only in the jacket thickness. Because of the reduced jacket wall thickness, this cable is not recommended for deployable applications.

Technical Specification:

As Canford CAT5E-F except:

Overall jacket: Soft semi-matt PVC, O.D. 5.8mm

Weight: 3.6kg/100m

Reel length: 500 metres

Cut lengths: Available in any multiple of 1 metre

Manufactured to a Canford original design by Draka Comteq.
