

MPH31-G

Horn loaded sound projector

The MPH31-G is a horn loaded sound projector suited for low impedance and 100 volt installations. The most common used applications are noisy areas where you need the sound to be more directive. It is for sure the ideal solution for production halls, warehouses... Be sure everyone heard your message loud and clear.

The MPH31-G has been designed especially for outdoor background music, but is also applicable on any other location where you may want to benefit from the sturdy housing and IP54 rating.

This horn loaded music projector can operate in 30, 15, 7.5 and 4 watts in a 100 volt system by using the simple and easy accessible switch at the back of the speaker.

If you are looking for a solution for balanced sound for music and speech reproduction, the MPH31-G will definitely come out as a well appreciated loudspeaker with lots of possibilities. Installers simply love the fact that they don't need to open the cabinet to connect the speaker wires.

TECHNICAL SPECIFICATIONS

| | | | |
|--------------------------|-------------|--------------------------------------|-------------------|
| outside diam. in mm | 0 | height in mm | 170 |
| width in mm | 226 | depth in mm | 244 |
| loudspeaker system | single cone | woofer size in inch | 5,25 |
| woofer cone material | paper | mounting system | U-bracket |
| colour | grey | 100V transformer power taps in watts | 30 - 15 - 7,5 - 4 |
| impedance in ohms | 8 | low impedance dynamic power in watts | 30 |
| SPL 1W/1m in dB | 92 | max SPL 1m in dB | 107 |
| frequency response in Hz | 120 - 15K | main construction material | ABS plastic |
| IP rating | 54 | applicable low impedance | Yes |
| applicable in 100V | Yes | Vertical dispersion angle 1000 Hz | 180° |
