### **The Hybrid: Wireless, Digital Audio, Analogue Audio**

Listen on our Hi-X25BT headphones wirelessly via *Bluetooth®* for on-the-go, or with an included cable for an analogue-monitoring and listening experience, or even via a USB-C® cable for digital audio in your studio or home studio. It's your choice. However you connect, you're going to love the acclaimed crystal clear and precise High Excursion sound.

Hi-X25BT headphones, designed and engineered in Vienna, feature:

- Our proprietary High Excursion Technology, for low THD at low frequencies and clear, precise sound
- Analogue audio via a detachable USB-C®-to-3.5mm analogue jack cable
- Digital audio via a detachable USB-C® cable
- Touch-sensitive control pad (Play, Stop, Forward, Back, Volume Up, Volume Down, Pick up Call)
- Roadworthy foldable construction for maximum portability and easy storage
- Integrated microphone for taking calls
- Simultaneous Bluetooth® listening while recharging battery via USB-C®
- 30-hour wireless listening
