Canford Rack Flight Cases

CANFORD AUDIO FLIGHT CASES

These cases are extremely strong in relation to their weight, and offer complete protection against almost any hazard. They are built from either 6mm or 9mm thick plywood, (the thickness being determined by the size and weight of the article to be protected) onto which is bonded a layer of blue, textured ABS plastic. This results in an attractive and extremely hard wearing finish. The boards are cut to the sizes required and then slotted and riveted into a custom-made aluminium extrusion which ensures a rigid, yet light construction. A "hybrid" extruded aluminium lid seal both helps prevent the ingress of dust and dirt and locates the lid accurately in place. The case corners are protected and reinforced by zinc plated steel knuckled corner pieces. All standard types feature spring loaded recessed steel handles and cam "butterfly" catches.

GENERAL SPECIFICATION

Unit Height	See Descriptions
Standard Rack Depth	460mm
Shallow Rack Depth	200mm
Suitable Cage Nuts	16-0261 RACKMOUNT CAGE NUTS For 1.63-2.64mm material thickness (pack of 25)

- 16-604 CANFORD FLIGHT CASE 4U rack
- 16-606 CANFORD FLIGHT CASE 6U rack
- 16-608 CANFORD FLIGHT CASE 8U rack
- 16-610 CANFORD FLIGHT CASE 10U rack
- 16-612 CANFORD FLIGHT CASE 12U rack
- 16-615 CANFORD FLIGHT CASE 15U rack
- 16-617 CANFORD FLIGHT CASE 17U rack
- 16-618 CANFORD FLIGHT CASE 21U rack

19" racks

Available as 4U, 6U, 8U, 10U, 12U, 15U, 17U and 21U high. All are 460mm deep, excluding front and rear covers, both removable. Standard punched 19" rack strip is fitted front and rear.

19" racks with castors

Available as 8U, 10U, 12U, 15U, 17U and 21U high. All are 460mm deep, excluding front and rear covers, both removable. Standard punched 19" rack strip is fitted front and rear. These models have four castors on the base of the rack allowing for the ease of transportation/deployment.

16-609 CANFORD FLIGHT CASE 8U rack, with castors

16-611 CANFORD FLIGHT CASE 10U rack, with castors

16-613 CANFORD FLIGHT CASE 12U rack, with castors

16-616 CANFORD FLIGHT CASE 15U rack, with castors

16-620 CANFORD FLIGHT CASE 17U rack, with castors

16-621 CANFORD FLIGHT CASE 21U rack, with castors

19" shallow rack 12U

Available as 12U high only this shallow rack is 200mm deep with removable front cover. Standard punched 19" rack strip is fitted to the front for equipment not requiring the extended depth of the standard 19" rack.

16-632 CANFORD FLIGHT CASE 12U shallow rack

19" stagebox racks

Available 6U, 8U, 10U and 12U high. Sides and ends formed from solid aluminium extrusions, with top and bottom panels of 6mm birch ply faced with PVC slotted and rivetted in place. Lid is 28mm deep inside, and is removable. Base is 63mm deep, and is fitted with standard punched 19" rack strip. A leather carrying handle, lift-off hinges, catches and steel corner caps are fitted.
