

DISPLAYPORT ADAPTER CABLES

DisplayPort is a 20-pin connector similar to HDMI but designed to replace DVI/VGA. The standard was put forward by VESA to define a new royalty-free audio/video connection.

DISPLAYPORT CABLES Male to HDMI

38-8968 DISPLAYPORT CABLE Male to HDMI, 2 metre

Standard size DisplayPort to HDMI cable suitable for adapting DisplayPort computer or graphics card to HDMI display devices/monitors/TV.

Passive cable	
DisplayPort Version 1.1 compliant	10.8 Gbit/s Bandwidth
HDMI V1.3b compliant	
Supports 1080P resolution	24-bit colour depths
Working Temperature	0°C TO +50°C; 15-85% RH (Non-Condensing)
Storage Temperature	-25°C TO +85°C; 15-85% RH (Non-Condensing)

DISPLAYPORT CABLES Male to VGA

38-8969 DISPLAYPORT CABLE Male to VGA, 2 metre

Standard size DisplayPort to VGA cable suitable for adapting DisplayPort computer or graphics card to display devices/monitors.

DisplayPort Version 1.1 compliant	10.8 Gbit/s Bandwidth
Supports existing VESA and CEA standards	
Supports a minimum of 1080P resolution at 24bpp, 50/60 Hz at 15 metres	
Supports resolutions greater than QXGA (2048 x 1536) at 24-bit colour depths	
Supports video bandwidth up to 10.8Gbps	
Supports hot plug detection as well as link status failure	
Embedded clock architecture to reduce EMI susceptibility	
Working Temperature	0°C TO +50°C; 15-85% RH (Non-Condensing)
Storage Temperature	-25°C TO +85°C; 15-85% RH (Non-Condensing)
