

The Canford AV modular connection system is an extensive, unified range of faceplates and snap-in modules. Suited to environments such as classrooms, conference rooms and meeting rooms, this wide range of audio, video and data modules can be combined to provide connections exactly as required for each location.

25mm x 50mm 'half' modules with a panel mount 3.5mm stereo/3pole jack socket with short 'pigtail' rear cable connection terminating with a cable mount 3.5mm stereo/3pole jack socket.
