

53-284 K&M 22160 CEILING MOUNT Black

Ceiling mount. Use in conjunction with boom arm 53-268 K&M 21140 BOOM ARM for overhead support of studio mics (order boom separately).
Three-screw 104mm diameter fixing flange, telescopic stem with friction clamp, 3/8" thread. Length 860-1570mm. Black finish.

Note: Care MUST be taken during installation to ensure that the boom arm is securely fastened onto the stem. Use of a thread locking compound is recommended. The friction clamp in the telescopic section permits alignment of the boom to the required mic position, and use of a thread lock compound ensures that movement of the boom arm by presenters does not impair safety considerations.
