Mini-jack pass-through plate

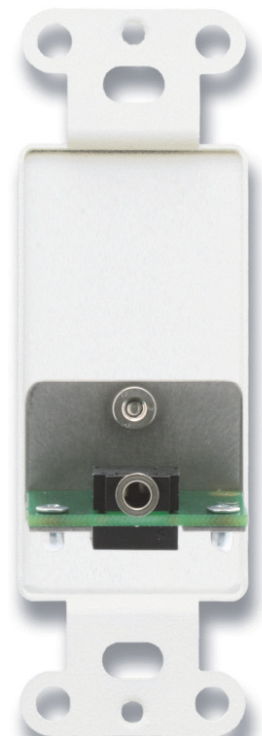

DB-MJPT

DS-MJPT

D-MJPT

The D SERIES-MJPT is a Decora style wall plate with a mini-jack (3.5 mm, 1/8") input or output connector. The front-panel jack is directly connected to a second mini-jack on the rear of the D-MJPT. The panel is ideal for mounting in a wall or in an RDL DC-1 Decora style countertop chassis. The mini-jack pass-through allows quick installation to provide user audio connections between the jack plate and a computer or other audio product that connects through a mini-jack. The D SERIES-MJPT front panels are constructed of stainless or carbon steel for durability. Stainless steel models feature a brushed finish with direct lettering. Powder coated (D and DB) models are finished with a reverse-printed front-panel polycarbonate laminate which provides an attractive, durable finished appearance. Custom labeling is available through RDL.
