

WS12

DELUXE WINDSHIELD FOR VIDEOMIC GO II

The WS12 is a professional-grade windshield for the RØDE VideoMic GO II microphone. Featuring open cell foam covered by synthetic fur, it is designed to minimise wind noise and plosives when recording. Includes a wind seal made of synthetic rubber to block any unused sockets (USB-C or 3.5mm) on the microphone, preventing wind entering the rear of the microphone.
